ORIGINAL PAPER

Analysis of the predicting variables for daily and weekly fluctuations of two airborne fungal spores: *Alternaria* and *Cladosporium*

Abstract *Alternaria* and *Cladosporium* are two fungal taxa whose spores (conidia) are included frequently in aerobiological studies of outdoor environments. Both spore types are present in the atmosphere of Malaga (Spain) throughout almost the entire year, although they reach their highest concentrations during spring and autumn. To establish predicting variables for daily and weekly fluctuations, Spearman's correlations and stepwise multiple regressions between spore concentrations (measured using a volumetric 7-day recorder) and meteorological variables were made with results obtained for both spore types in 1996 and 1997. Correlations and regressions were also made between the different taxa and their concentrations in different years. Significant and positive correlation coefficients were always obtained between spore concentrations of both taxa, followed by temperature, their concentrations in different years, sunshine hours and relative humidity (this last in a negative sense). For the two spore types we obtained higher correlation and regression coefficients using weekly data. We showed different regression models using weekly values. From the results and a practical point of view, it was concluded that weekly values of the atmospheric concentration of *Alternaria* spores can be predicted from the maximum temperature expected and its concentrations in the years sampled. As regards the atmospheric concentration of *Cladosporium* spores, the weekly values can be

predicted based on the concentration of *Alternaria* spores, thus saving the time and effort that would otherwise be employed in counting them by optical microscopy.

Keywords Fungal spores · *Alternaria* · *Cladosporium* · Aerobiology · Predicting variable

Introduction

Alternaria and *Cladosporium* are imperfect fungi (Deuteromycetos) that disperse large numbers of spores (conidia) in the atmosphere. *Cladosporium* is the most abundant spore type in many outdoor environment studies, accounting for 40–80% of the total spore count in many European cities (Spielsma 1995), while *Alternaria* is included in many studies because of its importance in the agricultural sector due to its pathogenicity towards different crops such as potato (Iglesias et al. 2007). Both spore types are of clinical importance because they are considered allergenic (Burge 1985; Resano et al. 1998; Kurup et al. 2002). In Spain, sensitivity to fungal spores is thought to affect between 5.8% and 12% of the population (Rubio and Ochando 1995; Quirce Gancedo 2006). In an attempt to establish preventive measures against such allergies and the fungal infection of crops, aerobiologists have studied the relationship between the daily atmospheric concentration of fungus spores and meteorological parameters by establishing correlation and regression analyses. Some studies of this type on airborne spores have been carried out in Spain (Munuea and Carrión 1995; Herrero et al. 1996; Mediavilla et al. 1998; Fernández et al. 1998; Sabariego et al. 2000) and the United States (Trout and Levettin 2001; Burch and Levettin 2002).

How It Works

Select the journal that suits your research best from over 2,600 Springer publications.

The Springer Journal Selector uses semantic technology to help you quickly choose the Springer journal that is right for your paper.

Enter your abstract, description of your research, or a sample text and the Springer Journal Selector provides a list of relevant journals. You can refine the results based on requirements for Impact Factor or publishing model, including an option to match to journals that are fully open access or have open access options.

Journals By Subject Area

You will find them listed by subject area and then alphabetically.

Detailed instructions for authors, information about the aims and scope and the types of papers that are published in a specific journal can be found on that journal's homepage.

How to choose a target journal

[Read about some factors to consider](#)

- Visite los sitios web de grupos de investigación que trabajan en su área y compruebe donde han publicado sus resultados de investigación. Compruebe además, si sus resultados han sido visibles y cuantas veces han sido citados.
- Siga las referencias en artículos de investigación
- Haga uso de bibliotecas digitales, Servicios de Indexado (index) y resúmenes (abstracts), archivos en línea etc [ACM Digital Library](#), [dblp](#), [EBSCO](#), [SCOPUS](#), [arXiv](#)
- Mire los sitios web de los editoriales importantes, la mayoría disponen de una sección para autores donde puede encontrar información muy útil.
- ¿Es un impact factor importante para usted? ¿O le preocupa más la visibilidad?
- Hable con los bibliotecarios de su universidad, disponen de mucha experiencia
- Hable con sus compañeros de trabajo sobre las experiencias que ellos tengan con la revista que esté considerando.
- Evite revistas que no tengan un proceso claro de entrega y revisión
- No olvide la importancia que están adquiriendo las redes sociales en internet
- Hágase miembro de grupos relevantes entre las redes sociales: LinkedIn
- Sugerencia: una página en Facebook para todos sus conocidos académicos.

International Network on Social Robotics

Discussions Members Promotions Jobs Search Manage More...

The International Journal of Social Robotics covers a broad spectrum of topics related to the latest technologies, new research results and developments in the area of social robotics on all levels, from developments in core enabling technologies to system integration, aesthetic design, applications and social implications.

The journal publishes original, peer reviewed articles and contributions on innovative ideas and concepts, new discoveries and improvements, as well as novel applications, by leading researchers and developers regarding the latest fundamental advances in the core technologies that form the backbone of social robotics, distinguished developmental projects in the area, as well as seminal works in aesthetic design, ethics and philosophy, studies on social impact and influence, pertaining to social robotics.

It provides an overview of the current state of the social robotics scene, how the field and related technologies are set to evolve in the future, and their impact on society at large. Topics of interest for the scientific papers and letters include but are not limited to:

- Affective and cognitive sciences for socially interactive robots
- Context awareness, expectation and intention understanding
- Design philosophies and socially appealing design methodologies
- Biomechatronics, neuro-robotics, and biomedical robotics
- Human factors and ergonomics in human-robot interactions
- Intelligent control and artificial intelligence for social robotics
- Knowledge representation, information acquisition, and decision making
- Learning, adaptation and evolution of intelligence
- Interaction and collaboration between robots, humans and environments

You can find more information on: <http://www.springer.com/engineering/robotics/journal/12369>

Author Academy: Now Featuring Interactive Courses!

Welcome to the Expanded Springer Author Academy, a guide from Springer and Edanz on writing and publishing.

Dozens of pages offer detailed advice on

- How to publish a journal article
- How to prepare a book manuscript
- Peer Review and what it means to an Author

For those of you interested in more thorough study, we have now introduced courses including interactive features like quizzes and certificates.

Click below and on the right for an overview and links to the e-learning classes.

- » Journal Author Academy
- » Peer Review
- » Book Author Academy

Videos with Chinese, Japanese or English subtitles

For those of you who prefer to listen to an instructor instead of reading we also provide videos (with Chinese and Japanese or English subtitles if you prefer).

Why is Publishing Your Work Important At All?

Before you begin, it may be useful to remind yourself of why publishing your work is important. You might need to publish in order to graduate, get a job, or advance your career. But first take a moment to think about two of the most important aims of scientists:

NAVIGATE TO...

The screenshot shows the Springer Rights and Permissions website. At the top, there is a navigation bar with links for HOME, MY SPRINGER, SUBJECTS, SERVICES, PUBLISHERS, and ABOUT US. A search bar with a 'GO' button and an 'Advanced Search' link is also present. The main content area features a large banner image of a sunset over the ocean with the text 'Welcome to the Rights section of Springer!'. Below this, there are several sections: 'Springer Rights Platform' with a paragraph about Springer's record of innovation and a link to 'More'; 'Foreign Rights News' with a paragraph about highlights from the program and a link to 'More'; and 'Social Sciences and Humanities Program' with a paragraph about the program and a link to 'More'. On the right side, there are three promotional boxes: 'Contact us!' with an envelope icon and text 'Find the Team responsible for the material you wish to use.'; 'Book Fairs 2013' with text 'Meet The Rights Team at the major international bookfairs.'; and 'Springer against Piracy' with text 'The taskforce to ensure that our content is handled properly'. Below these is a 'LOOKING FOR SPRINGER CONTENT' section with a list of options: 'Books', 'Customized Title Catalogue', and 'Journals + e-books'. At the bottom right, there is a red circular badge that says 'Anytime! access 24'. A small inset image shows a screenshot of the 'RIGHTS LINK' form, which includes fields for 'Title', 'Author', 'Publisher', 'Date', and 'Identify the company name', along with a 'SUBMIT' button.

- Impact Factor
- The h-index
- Article Level Metrics
- European Reference Index for the Humanities (ERIH)
- Google Scholar citations databases
- Microsoft Academic Search
- Social (media) impact

- Hay mucho debate sobre impact factors en la comunidad científica. Sin embargo, el impact factor está considerado como punto de referencia de calidad en muchas comunidades académicas. [Thomson ISI](#)
- Los Impact Factors miden: la popularidad de una determinada disciplina científica o un tema
él número de científicos que publican en determinadas disciplinas

Ejemplo: las revistas biomédicas como norma tienen un impact factor superior a revistas de ingeniería

- Sin embargo, el uso de una revista también es un factor importante.
- A veces un impact factor puede llegar a ser incluso inapropiado.
- Impact factors pueden subir y bajar, p.e. : el incremento del número de artículos o tomos de una revista puede causar un descenso en el impact factor del año siguiente.

Personal & Ubiquitous Computing

IF - 1.293

Uso en 2010 - 42,221

AI & Society

No IF

Uso en 2010 – 51,523

- Estudios orientales & africanos
- Investigaciones pedagógicas y educacionales
- Filosofía
- Psicología
- Estudios religiosos & Teología

Cada sección tiene un propósito definido

- Title
- Abstract
- Keywords

El título debe:

- *identificar el tema principal o mensaje del artículo*
- *atraer lectores*
- *ser corto*

El resumen es:

La parte más leída del artículo

NO incluye información que no esté en el artículo

No incluye referencias

Título, resumen y Palabras clave: **sencillos y concretos para facilitar su búsqueda y clasificación**

- Main text (IMRAD)

- Introduction
- Methods
- Results
- And
- Discussions

- ¿Qué pregunta (problema) fué estudiado?
- ¿Cómo se estudió el problema?
- ¿Qué se encontró?
- ¿Qué significan/aportan los resultados?

- Conclusion
- Acknowledgement
- References

Conclusión y referencias: **necesarias**

Agradecimiento y material de soporte: **opcionales**

- Supporting Materials

- Da crédito a los autores que han contribuido
- Da crédito a las personas o instituciones que hicieron posible la investigación
- Demuestra conflictos de interés

- Formatee sus referencias siguiendo las instrucciones para autores
- Sea preciso en sus referencias; las referencias forman el enlace entre su artículo y la literatura científica
- Use herramientas disponibles para la administración de su propia biblioteca científica

- Asegúrese que el mensaje de su artículo esté claro
- ¿Es el contenido importante o está ofreciendo algo nuevo?
- ¿Es su artículo relevante a la especialidad de la revista a la que quiere mandar el artículo?
- Compruebe el tiempo de publicación de la revista – ¿tiene muchos retrasos? En caso afirmativo, ¿por qué? (¿un porcentaje de rechazo bajo? ¿Dudosa gestión? ¿Problemas con el proceso de revisión?)
- Sus investigaciones deben cumplir con las garantías de calidad que hayan solicitado los editores y revisores de la revista.
- Asegúrese que la ciencia en la que está basada su investigación es válida y que apoye las conclusiones a las que ha llegado.
- Trabaje utilizando su propio estilo . Debe ser claro, concreto y conciso . Menos es más.
- Afine sus técnicas revisando artículos de otros compañeros, le ayudará a desarrollar su propio sistema para escribir artículos científicos.

- Los servicios profesionales de redacción le pueden ayudar a mejorar su texto, bien con la gramática o con el estilo para facilitar la lectura del manuscrito
- No son requisito ni una garantía para la aceptación del manuscrito
- Los servicios profesionales de redacción aumentan la oportunidad de aceptación de su manuscrito y aseguran una clara comunicación .
- Edanz ayuda a los autores que planean el envío a manuscrito a una revista de Springer www.edanzediting.com/springer_lp

- El trabajo no ha sido publicado previamente
- No ha sido enviado a otra revista / editorial
- La publicación ha sido aprobada por co-autores y autoridades responsables
- Se ha obtenido permiso de los propietarios de los derechos (copyright)
- No existe invención de datos o falsificaciones

CrossCheck powered by iThenticate is an initiative started by CrossRef to help its members actively engage in efforts to prevent scholarly and professional plagiarism

- Construya frases cortas que incluyan una idea o información, evitando múltiples declaraciones en una única frase
- Compruebe que el Inglés utilizado es el correcto, consultando a personas que dominen este idioma, para su revisión antes de enviar el artículo a la revista seleccionada.
- En la introducción debe describir el contexto para convencer a los lectores de que su trabajo es útil y valioso: de esta forma se enfoca la descripción dentro del objetivo general de la publicación
- No describa extensamente procedimientos o metodologías que ya han sido publicadas previamente. En este caso, descríbalas brevemente indicando las referencias bibliograficas pertinentes
- Presente los resultados más relevantes utilizando figuras e ilustraciones (gráficos, tablas, fotos)
- En los reconocimientos: nombre las personas o entidades que han ayudado en alguna fase del trabajo: incluyendo: asesores, soporte financiero, revisores etc.
- En las referencias: cite las publicaciones principales que han servido de base o las más relacionadas con el trabajo.

- Lea bien las instrucciones de la revista y asegúrese de seguirlas.
- Nunca debe mandar un artículo a más de una revista a la vez! [Publishing Integrity](#)
- Si los revisores de la revista le indican recomendaciones para corregir su artículo de nuevo, seguirlas.
- No se desanime si el artículo es rechazado – simplemente puede ser por el hecho que la revista a la que lo ha mandado tiene un porcentaje de rechazo alto.

Política de auto archivo para autores de revistas

- Se puede depositar la versión aceptada
- Se puede incluir en la página web del autor: no hay embargo alguno
- Para cualquier repositorio: un embargo de 12 meses

RoMEO Colour	Archiving policy
Green	Can archive pre-print <i>and</i> post-print or publisher's version/PDF
Blue	Can archive post-print (ie final draft post-refereeing) or publisher's version/PDF
Yellow	Can archive pre-print (ie pre-refereeing)
White	Archiving not formally supported

Springer es verde

Permite compartir, combinar y hacer uso comercial del trabajo

Se debe citar el trabajo de la forma especificada por el autor/ licenciador

Open access / acceso abierto en Springer es **e-only** con **publicación continua** (artículos numerados, búsqueda de artículos por mes y por año)

Revistas de Open access / Acceso abierto tienen un **sistema riguroso de revisión por pares**, al igual que revistas con suscripciones.

¿Qué es **SpringerOpen**  ?

SpringerOpen

- Un nuevo modelo de revistas y de libros de acceso abierto que cubre todas las disciplinas
- **TODOS** los artículos y todos los libros se convierten en su totalidad y de forma inmediata en publicaciones de acceso abierto

REVISTAS:

- **SIN** suscripciones, (pago annual)
pero un pago por el proceso del artículo (500 – 1500Euro)
 - **Pago via autor** (que puede conseguir fondos a través beca de investigación, biblioteca, fondo institucional de acceso abierto, ...)
 - **Pagado por una institución- miembro**
 - **Bonos** (bonos de invitación para EICs)

About SpringerOpen

My SpringerOpen

SpringerOpen books

The growing demand for open access publishing across all disciplines has led Springer to expand our open access program to fully open access books. As a further addition to our already established [SpringerOpen journal portfolio](#) we now offer authors in all areas of science, technology and medicine (STM) the option to publish open access books.

Why publish a SpringerOpen book?

Freely available online

SpringerOpen books are freely and immediately available online at [SpringerLink](#) upon publication and are clearly labeled as 'open access'. They are accessible to anyone worldwide, which ensures distribution to the widest possible audience.

High visibility

In addition to [SpringerLink](#) all SpringerOpen books are listed in the [Directory of Open Access Books \(DOAB\)](#), increasing visibility and discoverability for your work. They are also automatically included in Springer's eBook Collections at no additional charge to ensure maximum distribution.

Authors retain copyright

SpringerOpen books are published under the [Creative Commons Non-Commercial \(CC BY-NC\)](#) license, so they can be reused and redistributed for non-commercial purposes as long as the original author is attributed.

All book types accepted

SpringerOpen accepts complete monographs, edited volumes, proceedings, and SpringerBriefs.

SpringerOpen books A-Z

The following books have already been published with SpringerOpen. They are freely available online at [SpringerLink](#) and listed in the [Directory of Open Access Books \(DOAB\)](#):

- Bisociative Knowledge Discovery
- Greening the Financial Sector
- Lecture Notes in Computer Science - Telecommunication Economics
- Lecture Notes in Computer Science - The Future Internet 2011
- Lecture Notes in Computer Science - The Future Internet 2012
- Manifesto of the New Economy
- Subject-Oriented Business Process Management
- Transgovernance - Advancing Sustainability Governance

ABOUT THIS SERIES | TITLES IN THIS SERIES | VOLUME PACKAGES

The fundamental questions arising in mechanics are: Why?, How?, and How much? The aim of this series is to provide lucid accounts written by authoritative researchers giving vision and insight in answering these questions on the subject of mechanics as it relates to solids. The scope of the series covers the entire spectrum of solid mechanics. Thus it includes the foundation of mechanics; variational formulations; computational mechanics; statics, kinematics and dynamics of rigid and elastic bodies; vibrations of solids and structures; dynamical systems and chaos; the theories of elasticity, plasticity and viscoelasticity; composite materials; rods, beams, shells and membranes; structural control and stability; soils, rocks and geomechanics;

Springer es la mayor editorial científico-técnico-médica del mundo

Publicamos más de 2700 revistas y más de 6500 nuevos libros al año

Los mejores investigadores del mundo publican con Springer

Estamos aquí para difundir sus conocimientos

Sabemos lo que hacemos con 170 años de experiencia

Nos encanta ayudarles con sus publicaciones tanto para revistas como para libros.

Nuestros libros se publican en tres formatos: e-libro, Impreso(papel), MyCopy

Su esfuerzo para publicar dispone de toda nuestra atención.

¡ GRACIAS POR CONSIDERARNOS SU EDITORIAL!

¿ Preguntas?
¿ Quiere publicar con Springer?
¿ Tiene ideas para co-publicar?

No dude en contactarme:
