- 
- *Students have numerous tools on the Internet in their hands to search information and to learn in an autonomous way.*
  - *The COVID Pandemic has forced society to use technology to teach and learn.*

# METHODOLOGICAL TECHNIQUES

---

- **FIRST, CONVERTING THE AMBIENCE OF ON-SITE CLASS IN AN ONLINE CLASS.**

We need to create a trusted and friendly sphere, where students are feel self-confidence even if they are mistaken since the first day of course

# METHODOLOGICAL TECHNIQUES

---

- SECOND, COMBINING THEORETICAL AND PRACTICAL METHODS IN THE SAME CLASS.

It is essential for the students to be able to discriminate between veridical source of information and unreliable websites.

# METHODOLOGICAL TECHNIQUES

---

- **THIRD, INVOLVING STUDENTS IN TEACHING TASKS.**

This method consist in changing the roles between professor and students because students doing an extra effort assimilating and explaining the lesson with tasks matching those of the professor

# METHODOLOGICAL TECHNIQUES

---

- FOURTH AND LAST, LEARNING AND ASSISTING THE STUDENT IN FINDING THE INFORMATION PROPERLY.

As a professor, you are a guidance, and you should try to teach how to use all of the tools in your arsenal.

---

THE AIM AND THE KEY OF KEEPING THE INTEREST OF STUDENTS THROUGHOUT THE COURSE, IS FOR THEM TO FEEL THAT THEY LEARN MORE IN YOUR CLASS THAN ON THE INTERNET.
