1. Introduction

- The syllabus of “Specialized Translation English/Spanish, Spanish/English (Scientific-Technical Texts)” is partially based on the use of the Moodle Platform in order to bring the teaching and learning of scientific and technical translation near the actual professional world.
- Terminology management is one of the most important stages in a translation project.

Terminology management is one of the most important stages in a translation project.

Training students to create their own glossaries through the Moodle platform (during the Post-translation Process).
INTRODUCING PROSPECTIVE MEDICAL TRANSLATORS INTO TERMINOLOGY MANAGEMENT:
BUILDING A VOCABULARY BASED ON AN OPEN SOURCE PLATFORM
